COUNCIL DECISION AND AMENDED RECOMMENDATION

C2002/065

Moved Councillor L Miles, seconded Councillor R Paine

That Council, with respect to the petition received from Christian Fletcher regarding the WALGA Climate Change Policy Statement:

- 1. Receive the petition; and**
- 2. Refer the petition to the CEO to prepare a report to Council, to be presented no later than the Ordinary Council Meeting of 22 April 2020.**

CARRIED 7/0

Reasons: This amendment provides clarity and transparency to the petitioners as to the action resolved by Council and the time frames in which it is to occur.

A petition was received from the petitioner on 5 February 2020 with the request that the City of Busselton “endorse the Western Australian Local Government Association’s (WALGA) Climate Change Policy Statement”. The petition contained 136 signatories.

The petition is provided under separate cover, with letters of support from the Joint Busselton and Dunsborough Chambers of Commerce and Industry (Attachment A) and Luke Pearce (Attachment B).

The requirements for a petition to be heard by Council is set out by Standing Order 6.9 of the City of Busselton *Standing Orders Local Law 2018*, specifically that it:

- (a) be addressed to the Mayor;
- (b) be made by electors of the district;
- (c) state the request on each page of the petition;
- (d) contain the name, address and signature of each elector making the request;
- (e) contain a summary of the reasons for the request;
- (f) state the name of the person to whom, and an address at which, notice to the petitioners can be given; and
- (g) be respectful and temperate in its language.

The presiding member has the discretion to accept the petition for consideration if it meets a majority of the above requirements. It is considered by officers that the petition meets all of the requirements set out by the Standing Orders.

Pursuant to Standing Order 6.9(3), the Council has the following options:

- (a) receive the petition;
- (b) reject the petition;
- (c) receive the petition and refer it to the CEO to prepare a report to Council / Committee;
- (d) receive the petition and refer it to the CEO for action.

5th February 2020

City of Busselton

Attention: Mayor Grant Henley

Locked Bag 1,
BUSSELTON WA 6280

Dear Mayor and fellow Councilors,

I am writing this letter in support of Christian Fletcher, regarding his Petition for the City of Busselton to endorse the Western Australian Local Government Association's Climate Change Policy.

The Dunsborough Yallingup Chamber of Commerce and Industry together with the Busselton Chamber of Commerce and Industry, are in favour of the City of Busselton adopting the WALGA Climate Change Policy of July 2018.

It appears pertinent that the City of Busselton take action in relation to Climate Change and set a sound example to the business community within its region and the residents who live here. The environmental costs of inaction to our beautiful South West region as well as the economic costs to all industries within the City of Busselton, seem too great to ignore.

WALGA encourages all Local Governments to become signatories of the Declaration, which will further support WALGA to advocate for the

appropriate funding and development of legislative mechanisms to support Local Government climate change management.

We advise:

- The DYCCI and BCCI are in favour of the City of Busselton endorsing the WALGA Climate Change Policy
- The DYCCI and BCCI encourage the City of Busselton to join other local Governments in Western Australia, such as Margaret River Augusta Shire, in signing the WALGA Climate Change Declaration.
- The DYCCI and BCCI encourage the City of Busselton to set an appropriate emissions reduction target for the region and work towards its achievement.
- The DYCCI and BCCI support the City of Busselton considering projects within the region to address issues around Climate Change.
- The DYCCI and BCCI acknowledges the impact of Climate Change upon environmental biodiversity, Tourism and other important economic industries, the increasing risk of Bush fires and the risk to residential communities and COB physical assets due to Coastal hazards.

As the City of Busselton is aware, Climate Change impacts coastal areas. Natural and built environment assets and their associated environmental, social, cultural and economic values are vulnerable to coastal hazards such as erosion and inundation as a result of Climate Change. The City of Busselton represents several towns directly affected by coastal issues and owns a great deal of infrastructure and physical assets directly impacted by coastal hazards and inundation.

As reported by The Climate Council in their 2014 paper "Counting the Costs: Climate Change and coastal flooding", studies in a number of states across Australia, all indicate that the projected increase in coastal flooding will come at great economic cost."

I would like to draw your attention to the Damara WA PTY LTD Study commissioned by the City of Busselton and finalised in 2011. In its

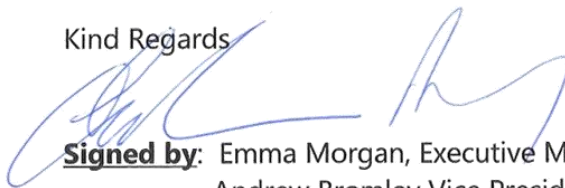

conclusions and recommendations section it states, "this study has identified that the Busselton coastline between Dunsborough and Wonnerup is susceptible to moderate to high risk of erosion due to climate change over a 100-year time frame". Management policies will need to focus upon "defend or retreat" depending upon the given situation.

In addition to Coastal hazards, the South West is no stranger to the risks of Bush Fires and the impact that it has both environmentally and economically. Given the risks of Fire increases with rising global temperatures, we encourage the City of Busselton to have sound management procedures and adequate funding for emergency services moving forward.

Mitigation of the above risks are dependent upon a global response to reducing Carbon emissions. It is our hope that the City of Busselton will play its part through policy development and direct action.

Thankyou for the consideration of our letter of support.

Kind Regards

Letter of Support- WALGA Climate Change Declaration

To the Councillors of the City of Busselton,

As a rate payer, local community member, business manager and citizen of the world I implore you to endorse the WALGA Climate Change Declaration at your council meeting on Wednesday 5th February 2020.

As a growing regional centre I believe that we should be on the forefront of best practice when dealing with the issue of climate change- I believe you as a council clearly have a responsibility to drive behaviours for the population of our local area independent of our sadly lagging state and federal governments. The WALGA Declaration is a step in the right direction and will allow you to put building blocks in place to become the leading local government in the state in this space.

You have a unique opportunity to show genuine leadership which is reflective of the attitudes of your local government area.

I'm open and happy to discuss this position at any time.

9.1 PETITION - FIRE HAZARD REDUCTION

COUNCIL DECISION AND RECOMMENDATION

C2002/066

Moved Councillor L Miles, seconded Councillor K Cox

That Council, with respect to the petition received from Mrs Jane Cummins regarding the ground fuel in the reserve on the southern side of the Vasse River diversion drain:

- 1. Receive the petition; and**
- 2. Refer the petition to the CEO for action.**

CARRIED 7/0

A petition was received from the petitioner on 5 February 2020 with respect to the amount of ground fuel in the reserve on the southern side of the Vasse River drain that borders properties in Fernbrook Way, Clydebank Avenue, Pennyworth Ramble and Glenmeer Ramble (the Reserve). The petition (provided under separate cover) contained 36 signatories and included images of the reserve which are provided at Attachment A.

The requirements for a petition to be heard by Council is set out by Standing Order 6.9 of the *City of Busselton Standing Orders Local Law 2018*, specifically that it:

- (a) be addressed to the Mayor;
- (b) be made by electors of the district;
- (c) state the request on each page of the petition;
- (d) contain the name, address and signature of each elector making the request;
- (e) contain a summary of the reasons for the request;
- (f) state the name of the person to whom, and an address at which, notice to the petitioners can be given; and
- (g) be respectful and temperate in its language.

The presiding member has the discretion to accept the petition for consideration if it meets a majority of the above requirements.

The petition does not meet requirement (a), but does meet all of the other requirements, noting the signatories to the petition are affected properties bordering the area of concern to the petitioner.

With respect to requirement (a), this is not considered to be prohibitive to the petition being considered. Given this, the Mayor as presiding member has indicated his discretion to accept the petition for consideration.

Pursuant to Standing Order 6.9(3), the Council then has the following options:

- (a) receive the petition;
- (b) reject the petition;
- (c) receive the petition and refer it to the CEO to prepare a report to Council / Committee;
- (d) receive the petition and refer it to the CEO for action.

In this case, it is recommended that the Council receive the petition and refer it to the CEO for action. Some background and context to that recommendation is set out below.

In late 2019, the Council endorsed the City's *Bushfire Risk Management Plan* (BRMP). The City is now developing the Treatment Schedules required by the BRMP. It is clear that there are significant areas across the City that are at significant risk from bushfire, and that a coordinated and properly prioritised approach will be required to mitigate those risks.

The land in question has been identified as a significant hazard, and there are areas adjacent to the land that have been identified as being at 'High', 'Very High' or 'Extreme' risk. The land itself, because of its environmental values is also identified as being an asset at risk.

The current thinking of City officers in terms of the assessment and mitigation of those risks is set out in Attachment B.

City officers are also planning to meet with some of the petitioners on site on Tuesday, 18 February 2020 (i.e. after agenda publication, but before the first agenda briefing and Community Access Session) to discuss the issues and envisaged approach to addressing the risk. One of the things that officers intend to discuss at the time is the interest in the petitioners and surrounding community in playing a role themselves in the management of the land, perhaps through joining a 'friends of reserves' group that already exists in the area.

It should be noted that the meeting has been organised in response to the petition, but the work to plan the mitigation works is not in response to the petition. Whilst it is appreciated that people may want to lobby the Council or the City more broadly with respect to mitigation of fire risk, because of the scope and nature of those risks, it is considered that prioritisation of risk mitigation needs to be on the basis of objective assessments of those risks, and not on a reactive basis.

Overview BRMP Statistics -

Table 11 – Local Government Asset Risk Summary

Risk Rating \ Asset Category	Low	Medium	High	Very High	Extreme
Human Settlement	5% (47)	11% (104)	15% (143)	14% (133)	40% (380)

Environmental			1% (10)		
Cultural					

Table 13 – Criteria for Acceptance of Risk and Course of Action

Risk Rating	Criteria for Acceptance of Risk	Course of Action
Extreme (Priorities 1A, 1B, 1C)	Only acceptable with excellent controls. Urgent treatment action is required.	Routine controls are not enough to adequately manage the risk. Treatment and monitoring of these risks will be a priority during the life of the BRM Plan. Specific action is required, to be prioritised based on number of assets benefitted, vulnerable or critical assets
Very High (Priorities 2A, 2B, 2C)	Only acceptable with excellent controls. Treatment action is required.	Routine controls are not enough to adequately manage the risk. Specific action will be required during the life of the BRM Plan, to be prioritised based on number of assets benefitted, vulnerable or critical assets.
High (Priorities 3A, 3B, 3C, 3D)	Only acceptable with adequate controls. Treatment action may be required.	Specific action may be required. Risk may be managed with routine controls and/or specific procedures and is subject to semi-annual monitoring.
Medium (Priorities 4A, 4B, 4C)	Acceptable with adequate controls. Treatment action is not required, but risk must be monitored regularly.	Specific action may not be required. Risk may be managed with routine controls and monitored periodically throughout the life of the BRM Plan.
Low (Priorities 5A, 5B, 5C)	Acceptable with adequate controls. Treatment action is not required, but risk must be monitored.	Need for specific action is unlikely. Risk will be managed with routine controls and monitored as required.

The asset groups adjoining the reserve in question are rated as extreme and very high.

Under the BRMP table 13, specific action is required for all extreme and very high groups within the next five years, although this is to be prioritised with works which benefit the greater number of groups, or special risk groups.

As a single reserve the BRMP supports treatment to this area within the next five years.

Strategically, this reserve forms part of large network of contiguous reserves running along the Water Corporation managed drain with fingers into the industrial and residential areas as well as along the Busselton Bypass. To the NW these reserves also adjoin the broadwater, which is the most significant threat within the Busselton town site.

The length of the drainage reserve as a whole, the proximity to substantial houses, a day care and the school all increase the priority of treatment.

Theoretical fire scenarios would be –

Fire starting on the bypass vegetation (**High** likelihood) travelling along the reserves up to the broadwater (**unlikely** due to required S / SE winds, fast detection and response)

Fire starting on the bypass vegetation (**High** likelihood) travelling along the reserves up to Fernbrook Way or into the industrial area (**likely** under moderate conditions despite unlikely wind directions and fast detection and response)

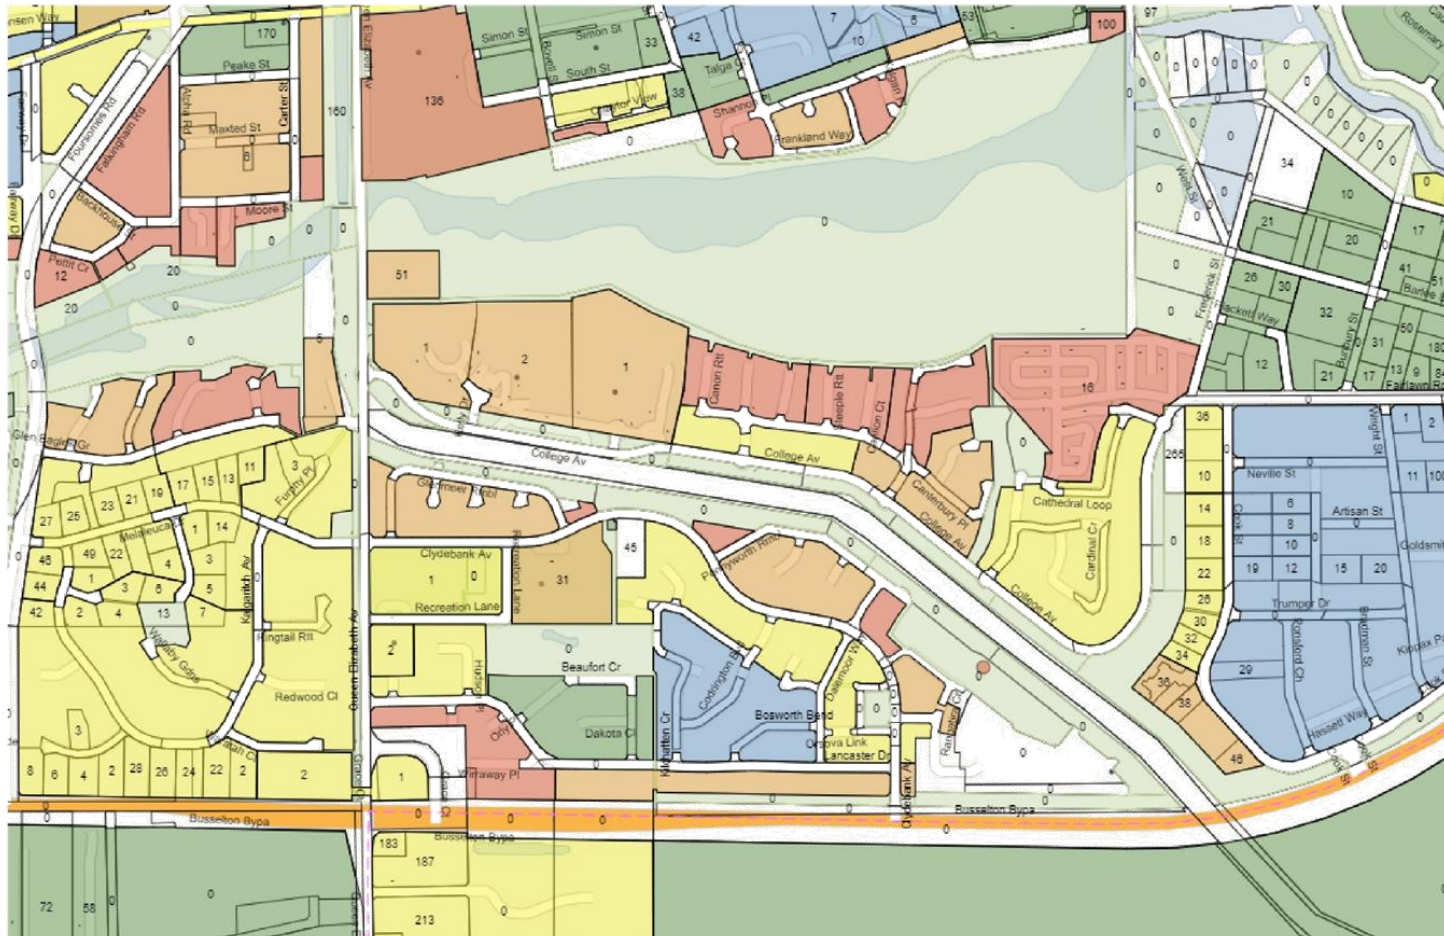

Fire starting within the reserves (**High** likelihood – arson, children, vehicular. Especially with schools in the vicinity) travelling east and west, into Fernbrook Way reserve, industrial area, residential area, broadwater. (**Highly likely** under moderate conditions)

Fire within the broadwater particularly to west, spreading into reserves from west to east, into Fernbrook Way, Industrial area, across Bypass and into farmland. Scenario would surround College Avenue area with fire

Suggested treatment options would be for pockets of strategic parkland clearing to be undertaken along the length of the drainage reserves. This would reduce the local risk to immediately adjoining assets, but would also reduce the likelihood of a significant local fire spreading into/through the reserve.

Strategic parkland clearing entails mulching down 85-90% of the ground and mid-level fuels, retaining trees except where canopy separation is considered. Retention of some ground vegetation is critical, a) as cover for WRT possums and b) to work around DRF and significant Flora in the area.

Initial cost of treatment can be funded through the Mitigation Activity Fund. Initially, the ongoing maintenance can also be funded through the MAF grants, but end result will be that management will become part of the City's business as usual ongoing maintenance plan. As more LG's are applying for funds the committee will start to prioritise funds granted. Currently any request (almost) is being funded.

COUNCIL DECISION AND COMMITTEE RECOMMENDATION AND OFFICER RECOMMENDATION

C2002/068 Moved Councillor L Miles, seconded Councillor P Carter

That the Council receives the statutory financial activity statement reports for the period ending 31 December 2019, pursuant to Regulation 34(4) of the *Local Government (Financial Management) Regulations*.

CARRIED 7/0

EN BLOC

EXECUTIVE SUMMARY

Pursuant to Section 6.4 of the *Local Government Act 1995* (the Act) and Regulation 34(4) of the *Local Government (Financial Management) Regulations 1996* (the Regulations), a local government is to prepare, on a monthly basis, a statement of financial activity that reports on the City's financial performance in relation to its adopted / amended budget.

This report has been compiled to fulfil the statutory reporting requirements of the Act and associated Regulations, whilst also providing the Council with an overview of the City's financial performance on a year to date basis for the period ending 31 December 2019.

BACKGROUND

The Regulations detail the form and manner in which financial activity statements are to be presented to the Council on a monthly basis, and are to include the following:

- Annual budget estimates
- Budget estimates to the end of the month in which the statement relates
- Actual amounts of revenue and expenditure to the end of the month in which the statement relates
- Material variances between budget estimates and actual revenue/expenditure (including an explanation of any material variances)
- The net current assets at the end of the month to which the statement relates (including an explanation of the composition of the net current position)

Additionally, and pursuant to Regulation 34(5) of the Regulations, a local government is required to adopt a material variance reporting threshold in each financial year. At its meeting on 31 July 2019, the Council adopted (C1907/131) the following material variance reporting threshold for the 2019/20 financial year:

“That pursuant to Regulation 34(5) of the *Local Government (Financial Management) Regulations*, the Council adopts a material variance reporting threshold with respect to financial activity statement reporting for the 2019/20 financial year as follows:

- Variances equal to or greater than 10% of the year to date budget amount as detailed in the Income Statement by Nature and Type/Statement of Financial Activity report, however variances due to timing differences and/or seasonal adjustments are to be reported on a quarterly basis; and
- Reporting of variances only applies for amounts greater than \$25,000.”

OFFICER COMMENT

In order to fulfil statutory reporting requirements and to provide the Council with a synopsis of the City’s overall financial performance on a year to date basis, the following financial reports are attached hereto:

Statement of Financial Activity

This report provides details of the City’s operating revenues and expenditures on a year to date basis, by nature and type (i.e. description). The report has been further extrapolated to include details of non-cash adjustments and capital revenues and expenditures, to identify the City’s net current position; which reconciles with that reflected in the associated Net Current Position report.

Net Current Position

This report provides details of the composition of the net current asset position on a full year basis, and reconciles with the net current position as per the Statement of Financial Activity.

Capital Acquisition Report

This report provides full year budget performance (by line item) in respect of the following capital expenditure activities:

- Land and Buildings
- Plant and Equipment
- Furniture and Equipment
- Infrastructure

Reserve Movements Report

This report provides summary details of transfers to and from reserve funds, and associated interest earnings’ on reserve funds, on a full year basis.

Additional reports and/or charts are also provided as required to further supplement the information comprised within the statutory financial reports.

Comments on Financial Activity to 31 December 2019

The Statement of Financial Activity for the year to date as at 31 December 2019 shows an overall Net Current Position of \$24.7M as opposed to the amended budget of \$9.3M. The following summarises the major variances in accordance with Council's adopted material variance reporting threshold that collectively make up the above difference:

Description	2019/20 Actual YTD	2019/20 Amended Budget YTD	2019/20 Amended Budget	2019/20 YTD Bud Variance	2019/20 YTD Bud Variance

Furniture & Equipment	(125,824)	(540,028)	(1,113,069)	76.70%	414,204
Infrastructure	(7,137,403)	(14,765,161)	(36,813,923)	51.66%	7,627,758
4. Proceeds from Sale of Assets	255,155	579,050	3,409,080	(55.94%)	(323,895)
5. Transfer to Restricted Assets	(438,247)	(30,054)	(60,100)	(1,358.20%)	(408,193)
6. Transfer from Restricted Assets	557,751	0	0	100%	557,751
7. Transfer from Reserves	1,232,906	1,657,906	33,992,705	(25.63%)	(425,000)

Revenue from Ordinary Activities

Year to date (YTD) actual income from ordinary activities is \$1.16M more than expected when compared to the YTD amended budget, with the following items meeting the material variance reporting threshold:

- Operating Grants, Subsidies and Contributions are \$578K (net) better than amended budget. This variance is mainly due to the following:
 - Legal Fees Reimbursements (10500) (\$40K) – budget item included for a fine that was received in the 18/19 financial year. A budget amendment was processed to move a portion of the fine from retained earnings to a legal reserve, however a further budget amendment to remove this revenue item is still being investigated;
 - Human Resources Reimbursements (10521) \$37K - \$18K due to conference & training reimbursements not budgeted for sufficiently and \$19K received in workers comp reimbursements with all receipts budgeted in June;
 - Contributions to Airport Operations (11151) \$49K – received December but budgeted in June;
 - Environmental Management Administration (10830) \$172K – grant received for the Revitalizing Geographe Waterways Phase 2 project earlier than forecast;
 - Preventative Services CLAG (10925) \$30K – part of the operating grant received from Department of Health earlier than budgeted;
 - Protective burning and firebreaks reserve (10931) \$166K. This variance relates to receiving 50% grant awarded to the City under the mitigation activity fund (Emergency Services Levy) and will be subject to a Council report requesting that the 2019/20 budget be amended to reflect this additional income. Details of the cost codes for this amendment are being finalised;

- Bushfire risk management planning (10942) DFES \$86K. This variance relates to the payment of grant in full for the bushfire risk planning coordinator position within the City of Busselton. This represents a timing difference between budget allocations (over 12 months), and actual funds received;
- Fire Prevention DFES (10940) \$49K – this is due to a combination of receiving the quarterly ESL grant a month earlier than forecast (\$90K over), and not receiving the prior period grant acquittal adjustment that was forecast in October (\$41K under);
- Pre-Primary Building & Surrounds (B1503) \$30K – grant was budgeted to be received in June 2020, but was received in November 2019;
- Regional Waste Management Administration (11301) (\$32K) – annual budget of \$63K spread over 12 months, but no contributions have actually been invoiced or received YTD;
- Reimbursements Old Butter Factory (B1401 & B9610) \$193K – timing difference due to difficulties in predicting when LGIS would process the claims. Advice received in January that claims have been processed.

Expenses from Ordinary Activities

Expenditure from ordinary activities is \$2.04M or 4.94% less than expected when compared to the amended YTD budget. No individual items exceed the variance reporting thresholds.

Non-Operating Grants, Subsidies and Contributions

2. Non-Operating Grants, Subsidies and Contributions are less than budget by \$1.9M with the main items impacting on the above result being the timing of the receipt of funding which is also offset with less than anticipated capital expenditure at this time.

Capital Expenditure

3. As at 31 December 2019, there is a variance of 58.8% or \$13.5M in total capital expenditure with YTD actual at \$9.5M against the YTD amended budget of \$22.3M.

The attachments to this report include detailed listings of all capital expenditure (project) items, however the main areas of variance are summarised as follows:

Many of these items of under expenditure e.g. Main Roads construction works, also assists in explaining the above current YTD shortfall in Non-Operating Grants. In the main, many of these projects have yet to be completed and represent a timing difference.

Proceeds from Sale of Assets

4. There is a variance for the proceeds from sale of assets of -\$324K, due to timing in the changeover of vehicles.

Transfer to Restricted Assets

5. There is a variance in transfers to restricted assets of \$408K more than amended budget. The reason for this is as follows:
 - Transfer to deposits and bonds of \$44K as opposed to a budget of \$0. These funds do not have a budget allocation as they are not able to be reliably measured;
 - Interest earned on government grants of \$25K transferred to restricted cash, for which there was no budget allocated as it was expected that the grant would have been utilized by this stage;
 - Additional bonds of \$321K were received in relation to the next stage of the Dunsborough Lakes development.

Transfer from Restricted Assets

6. There is a variance in transfers from restricted assets of \$558K more than amended budget. The main reason for this is as follows:
 - Transfer from Roadwork Bonds of \$519K as opposed to a budget of \$0. These funds do not have a budget allocation as they are not able to be reliably measured.

Transfer from Reserves

7. There is a variance for transfer from reserves of \$425K less than amended budget. The reason for this is as follows:
 - Transfer from Jetty Maintenance Reserve of \$425K did not occur due to works not being undertaken on cost code C3497 (part of the Parks, Gardens & Reserves variance shown above), for the following reasons:
 - i. The previous expenditure figure was based on the 50 year plan.
 - ii. The 5 year structural review undertaken in 2019/2020 discovered that the Jetty was in better condition than forecast in the 50 year plan. Capital works planned for 2020 have been deferred to 2030.
 - iii. Requests for Tenders issued for maintenance works per the 5 year plan are to be awarded at the Council meeting on 29 January 2020.
 - iv. As a result budget figures have been revised for next the 5 financial years to reflect the 5 year plan.

Investment Report

Pursuant to the Council's Investment Policy, a report is to be provided to the Council on a monthly basis, detailing the investment portfolio in terms of performance and counterparty percentage exposure of total portfolio. The report is also to provide details of investment income earned against budget, whilst confirming compliance of the portfolio with legislative and policy limits.

As at 31 December 2019, the value of the City's invested funds totalled \$81.48M, down from \$84.48M as at 30 November. The reduction is due to funds being transferred to the cheque account to meet ongoing normal operating costs.

During the month of November three term deposits totalling the amount of \$4.5M matured. These were renewed for a further 162 days at 1.51% on average.

The balance of the 11am account (an intermediary account which offers immediate access to the funds compared to the term deposits and a higher rate of return compared to the cheque account) reduced by \$3.0m with the funds being transferred to the cheque account to meet ongoing normal operating costs.

The balance of the Airport Development ANZ and WATC cash accounts remained steady.

The RBA announced no rate changes in December and January. Future movements are unknown at this time although further drops are possible in coming months.

Statutory Environment

Section 6.4 of the Act and Regulation 34 of the Regulations detail the form and manner in which a local government is to prepare financial activity statements.

Relevant Plans and Policies

There are no relevant plans or policies to consider in relation to this matter.

Financial Implications

Any financial implications are detailed within the context of this report.

Stakeholder Consultation

No external stakeholder consultation was required or undertaken in relation to this matter.

Risk Assessment

An assessment of the potential implications of implementing the officer recommendation has been undertaken using the City's risk management framework, with risks assessed taking into account any controls already in place. No risks of a medium or greater level have been identified.

Options

The Statements of Financial Activity are presented in accordance with Section 6.4 of the Act and Regulation 34 of the Regulations and are to be received. Council may wish to make additional resolutions as a result of having received these reports.

CONCLUSION

As at 31 December 2019, the City's financial performance is considered satisfactory.

EXECUTIVE SUMMARY

This report provides details of payments made from the City's bank accounts for the month of December 2019, for noting by the Council and recording in the Council Minutes.

BACKGROUND

The *Local Government (Financial Management) Regulations 1996* (the Regulations) requires that when the Council has delegated authority to the Chief Executive Officer to make payments from the City's bank accounts, that a list of payments made is prepared each month for presentation to, and noting by, the Council.

OFFICER COMMENT

In accordance with regular custom, the list of payments made for the month of December 2019 is presented for information.

Statutory Environment

Section 6.10 of the *Local Government Act 1995* and more specifically, Regulation 13 of the Regulations refer to the requirement for a listing of payments made each month to be presented to the Council.

Relevant Plans and Policies

There are no relevant plans or policies to consider in relation to this matter.

Financial Implications

EXECUTIVE SUMMARY

At its ordinary meeting of 12 February 2020, Council resolved to defer consideration of 'Application for Development Approval (DA18/0674) - Proposed Industry - Extractive (sand and gravel) - Lot 101 (285), Gibb Road, Kaloorup' to the Council meeting of 11 March 2020. Officers consider additional time is required to provide the additional information requested by Council and are seeking a two week extension of the deferral, to the ordinary Council meeting of 25 March 2020.

BACKGROUND

At its ordinary meeting of 12 February 2020, Council resolved to defer consideration of 'Application for Development Approval (DA18/0674) - proposed Industry - Extractive (sand and gravel) - Lot 101 (285), Gibb Road, Kaloorup' to the Council meeting of 11 March 2020. It is understood Council considered that it required further information in relation to various aspects of the proposal to make a determination, including additional information related to assessment of traffic impacts.

OFFICER COMMENT

To provide further information related to assessment of traffic impacts, officers have arranged for additional traffic counts to be taken, and have also sought external, independent traffic advice. Noting that the agenda for the 11 March meeting is expected to be published on 28 February, it is not considered that the additional information can be provided in time. The additional information could, though, be provided in time for the subsequent 25 March Council meeting (the agenda for which would be expected to be published on 13 March).

Note that there is also some additional information that is expected to be provided in relation to amenity impacts and water issues, as well as some further refinement of recommended conditions that may occur, and will be reflected in the agenda report for 25 March.

Statutory Environment

The key statutory environment in relation to the development application is set out in the *City of Busselton Local Planning Scheme 21* (Scheme), the *Planning and Development (Local Planning Schemes) Regulations 2015* (Regulations), Schedule 2 of which is the 'deemed provisions', which also functionally form part of the Scheme.

Through the planning and State Administrative Tribunal (SAT) legislation, the applicant has a right to lodge an application for review with the SAT (i.e. an 'appeal'); a right which emerged some time ago because of the length of time that has passed since the application was first lodged.

Relevant Plans and Policies

There are no relevant plans or policies that relate to a decision to further defer consideration of the application.

Financial Implications

There are no additional costs associated with the proposed further deferral.

Stakeholder Consultation

No external stakeholder consultation was required or undertaken in relation to the officer recommendation.

Risk Assessment

An assessment of the potential implications of implementing the officer recommendation has been undertaken using the City's risk management framework, with risks assessed taking into account any controls already in place. No risks of a medium or greater level have been identified.

Options

As an alternative to the proposed recommendation the Council could choose not to move the officer recommendation, in which case DA18/0674 will be returned to Council for assessment based on the information to hand for publication of the agenda for the ordinary Council meeting of 11 March 2020.

CONCLUSION

Whilst we are and remain comfortable to recommend determination of the applicant based on information available at the time of publication of the 12 February 2020 agenda, officers accept that further traffic impact assessment would assist Council in its consideration of DA18/0674. That information would also assist the City more broadly in the ongoing review of its extractive industry policy framework. In order for the additional information to be provided for Council's further consideration of the subject application, however, additional time is required and officers are therefore recommending a two week extension of the deferral.

COUNCIL DECISION AND OFFICER RECOMMENDATION

C2002/071 Moved Councillor L Miles, seconded Councillor P Carter

That the Council:

1. Authorise the CEO to write to the Minister for Local Government, Sports and Cultural Industries requesting that an application be made to the Parliamentary Counsel to draft an order for the Governor declaring Lot 50 on Deposited Plan 416610 Volume LR3171 Folio 367 (Lot 50) for the purpose of a Cemetery.
2. Authorise the CEO to write to the Minister for Lands requesting:
 - (a) incorporation under section 51 of the *Land Administration Act 1997* of Lot 50 into Reserve 9298 for the purpose of 'Cemetery Expansion'; and
 - (b) the issue of a Management Order over expanded Reserve 9298 (comprising Lots 50 and 51) to the City of Busselton for the purpose of 'Public Cemetery'.
3. Authorise the CEO to accept a Management Order placing care, control and management of Lots 50 and 51 within Reserve 9298 in the City of Busselton for the purpose of 'Public Cemetery'.

EN BLOC

EXECUTIVE SUMMARY

Many of the Busselton Cemetery denominational sections have reached practical capacity, with fewer than 100 plot sites remaining available for burials. The non-denominational lawn section is likely to reach practical capacity by as soon as 2025.

The City therefore recently purchased a portion of a 1.9-hectare land parcel for the purpose of expanding the existing public cemetery (3.8 hectares) on Neville Hyder Drive, Yalyalup, comprising current Reserve 9298. In order to formalise this process, Council requires the following to be undertaken:

1. Declaration of the land at Lot 50 on Deposited Plan 416610 Volume LR3171 Folio 367 (Lot 50) as a 'Cemetery';

2. Amalgamation of Lot 50 into the existing cemetery lot (Lot 51); and
3. Request a Management Order over the amalgamated lots for the purpose of 'Public Cemetery'.

The next stage of the process is to address the formalities involved in the declaration of the newly acquired land as 'Cemetery' by the Governor of WA. This will then allow its amalgamation into the existing Public Cemetery Reserve (Reserve).

This report seeks the support of Council to authorise the CEO to make formal requests on behalf of the City to the relevant State agencies to undertake the processes required to achieve those outcomes.

BACKGROUND

After undertaking a demand analysis of available plots within the Busselton Cemetery in 2014, it was identified that the facility required either expansion or the acquisition of an alternative site. Sites initially considered for potential expansion included Lot 11 Vasse Highway (Lot 11) and a portion of Lot 9009 Neville Hyder Drive (Lot 9009).

Following detailed assessments of both areas by environmental consultants, it was determined that, due to the likelihood of high development costs on the Lot 11 site, excising a portion of Lot 9009 and amalgamating it into the existing cemetery site was a better option.

Following briefings with Council and negotiations with the land owner of Lot 9009 in 2019, the City entered into a contract to purchase the subject land under CEO Delegation LG3B. Settlement of that contract resulted in the lodgement at Landgate of a deposited plan relating to a portion of Lot 9009 (Lot 50) in December 2019. Lot 50 had been subdivided from the original Lot 9009 with the intention of incorporating it into the Reserve. As a result of the statutory process outlined in the Officer Comment of this report, Lot 50 has been transferred direct to the State of WA.

The acquisition and integration of newly created Lot 50 into the Reserve will create a Public Cemetery of approximately 5.7 hectares in area. City Officers estimate that the plot yield of Lot 50 is likely to be in excess of 1000 additional burial sites. The infrastructure development costs have previously been allocated in the 2018/2019 Budget and are in accordance with the Long Term Financial Plan.

OFFICER COMMENT

Acquisition of Lot 50 was the first step to securing the expansion area. An application to the Department for Local Government, Sports and Cultural Industries (DLGSC) is now required to formally recognise the land as cemetery land. Upon approval by the Minister of the DLGSC, Parliamentary Counsel will draft an order and a request will be made to the Governor to formally declare the land as a 'Cemetery'. The Governor's declaration will be published in the Government Gazette, at the cost of the City.

The request to the DLGSC will require the provision of Council minutes in support of the proposal, together with a full description of the entire Reserve area, including the existing Cemetery land, evidence of consultation with relevant parties, a 'Cemetery Expansion Land Use Report' and a Level 2 Floral Vegetation Survey Report. With the exception of Council Minutes, all documentation and reports have already been collected and coordinated by officers in readiness.

In accordance with a process facilitated by section 152 of the *Planning and Development Act 2005*, Lot 50 was transferred direct to the State of WA for the purpose of 'Cemetery'. The Department of Planning Lands and Heritage (DPLH) has already provided written support for the inclusion of Lot 50 within the Reserve, subject to the formal agreement of Council.

To facilitate future development and management of the expanded Busselton Cemetery, it will be necessary to formally request that DPLH issue a Management Order placing the care, control and management of the new expanded Reserve in the City of Busselton. This report therefore seeks Council approval to request and accept such a Management Order in favour of the City.

Statutory Environment

Lot 50 has been vested in the Crown under section 152 of the *Planning and Development Act 2005*.

Under section 51 of the *Land Administration Act 1997*, the Minister for Lands may by order amend the boundaries of or the location of lots comprising a reserve and incorporate Lot 50 into Reserve 9298.

Section 4(1) of the *Cemeteries Act 1986* deals with the requirements in relation to the declaration of the land as a 'Cemetery' and publication of the Governor's Order in the in the Government Gazette.

Relevant Plans and Policies

The officer recommendation aligns to Key Goal Areas 6 of the Strategic Community Plan in so far as the responsible management of City assets are concerned. The declaration of the land as a 'Cemetery' ensures the future sustainable management and development of the Busselton Cemetery, with costs involved in the associated infrastructure requirements relatively low and with minimal impacts on natural flora and fauna.

The use of the additional land for the purpose of 'Cemetery expansion' is identified in the Structure Plan for the Airport North Industrial Park endorsed on 4 May 2012.

Financial Implications

Costs incurred for the acquisition of Lot 50 were allocated and expended from the current financial year's budget - these costs to date are \$79,122. \$100,000 was allocated from the Cemetery Reserve for this purpose, which was a carryover from the 2018/19 financial year. Further costs are expected in association with advertising and finalising of the transfer of land.

Costs for fencing and internal road infrastructure within the expanded portion of the Busselton Cemetery will occur in the 2020/21 budget, which will also be funded by the Cemetery Reserve.

Stakeholder Consultation

Liaison and consultation occurred with a number of State Government agencies during the course of investigating the suitability of Lot 50 for cemetery expansion. These included the Department of Local Government, Sports and Cultural Industries, the Department of Planning, Lands and Heritage and the Department of Biodiversity, Conservation and Attractions.

Risk Assessment

An assessment of the potential implications of implementing the officer recommendation has been undertaken using the City's risk management framework, with risks assessed taking into account any controls already in place.

There are no identified risks of a medium or greater level associated with the officer recommendation, with the recommendation serving to mitigate the risks associated with failing to obtain a formal declaration of the land or accepting management of it.

Options

As an alternative to the officer recommendation, Council could:

1. Choose not to require a Governor declaration of the status of the land as a 'Public Cemetery' at this stage and delay the process for a nominated period of time.
2. Choose not to accept a Management Order of the new lot within the Public Cemetery Reserve.

Neither of the above options are recommended, as the need to make Lot 50 available for the expansion of the Busselton Cemetery within the next 1-2 financial years has already been identified.

CONCLUSION

The practical capacity of burial lots within the existing Busselton Cemetery has, for some denominations, already been reached; others are expected to be exhausted in the very near future. The extensive research undertaken and reports commissioned prior to acquisition of Lot 50 render the use of this land as appropriate for such expansion, as does its location, being directly adjacent to the existing cemetery land.

Before embarking on the infrastructure costs required to incorporate Lot 50 into the Reserve, it is appropriate to undertake the statutory processes of declaration and amalgamation as outlined in this report. Council support to commence the formalities and engage with the appropriate State agencies is therefore recommended.

TIMELINE FOR IMPLEMENTATION OF OFFICER RECOMMENDATION

The request of the CEO to the Minister for Local Government, Sports and Cultural Industries to commence the application to declare Lot 50 as Public Cemetery will be sent within 2 weeks of the date of determination by Council. Once formally declared, the request to the Minister for Lands for amalgamation and issue of a Management Order will follow.

BY ABSOLUTE MAJORITY

EXECUTIVE SUMMARY

A meeting of the Marketing and Events Reference Group (MERG) was held on Wednesday 12 February 2020. This report presents the recommendations from that meeting.

BACKGROUND

At the Ordinary Meeting of Council held 13 April 2011, Council resolved (C1104/114) to endorse the implementation of a differential rating system whereby properties rated industrial and commercial across the City would directly contribute toward the City's continued support of tourism, marketing and event activities. The City also established a key stakeholders reference group, now known as the Marketing and Events Reference Group (MERG), to make recommendations to Council with respect to the marketing and events budget allocations.

At its meeting of 22 June 2011, Council resolved (C1106/201) to introduce a 3% Differential Rate on industrial and commercial rated properties which has increased over time to 10% in 2016/2017. The proceeds from the differential rate are allocated towards funding events and marketing.

The 2019/20 adopted budget for marketing and events totals \$993,270. This excludes budget allocations for Leavers Week, administration, and events staffing.

A MERG meeting was held on Wednesday 12 February 2020, with the following key matters presented:

- Update on events held since the last meeting on 18 November 2019 and upcoming major and new events;
- Consideration of event funding requests for the 2019/20 and 2020/21 financial years; and
- Discussion around the Tourism Council's 'Destination Boost' program and 'Spendmapp' economic reporting tool.

OFFICER COMMENT

Supporting the development and attraction of new events throughout the year, the City's Events Sponsorship Programme promotes the City of Busselton as an attractive event tourism destination for a range of events. At the MERG meeting held 12 February 2020 a range of requests for events and marketing funding were considered as outlined below:

Requests for Funding – Events Budget

Two (2) requests for funding through the events budget were received.

Jazz by the Bay

Jazz by the Bay organisers have approached the City requesting additional funding support for the 2020 event to be held on 29 May – 1 June 2020. Unfortunately while they have seen steady growth in the patronage and reputation of the event, the organising committee have struggled to secure enough additional funding to be able to keep pace with the costs of the event, and to grow the festival.

Jazz by the Bay organisers have requested top up funding of \$10-15k from the City, to allow the event to continue in 2020. This year is the last year of their multi-year agreement, and as such they will apply for a new agreement from 2020/21 onwards.

Squid Fest 2020

This is a brand new signature event to be held in Busselton. It will take place over the weekend of 23-24 October 2020. The event will consist of squid clinics and competitions; local and guest chefs presenting cooking demonstrations; local food, wine and produce; a recreational fishing and boating expo; entertainment; children's activities and more.

The organisers are seeking an 'out of round' sponsorship, as the timing of their event requires funding commitment earlier to determine whether they are able to proceed. This event has been identified in the City's Events Strategy as a key event to develop into a local signature event, similar to that of Jazz by the Bay and Fringe Festival. The organisers have requested \$50k in seed funding, MERG members recommend \$30k, similar to the seed funding provided to Jazz by the Bay and Fringe Festival events.

MERG members recommend the following funding allocations:

Applications for funding from the 2019/20 events budget:

Event	Requested	Recommendation
Jazz by the Bay 2020 – additional funding	\$10,000 - \$15,000	\$10,000
Total 2019/20		\$10,000

Applications for funding through the 2020/21 events budget:

Event	Requested	Recommendation
Squid Fest 2020	\$50,000	\$30,000
Total 2020/21		\$30,000

Busselton Chamber of Commerce (BCCI) – Business Council of Australia (BCA) luncheon

A letter was tabled from the BCCI, requesting funding of \$5,000 to assist with the costs of hosting the BCA luncheon on 20 February 2020. At the Council meeting of 12 June 2019, Council endorsed (C1906/101) an allocation of \$10,000 towards BCCI's CBD Activation Calendar of Events, a series of small events to be held throughout the 2019/20 financial year.

To date, City officers have yet to receive all requested information to finalise the contract for this funding. It is not expected that all of the proposed events will be held, and hence BCCI will not be eligible to receive the full funding amount. It is therefore recommended the \$5,000 of these funds be directed towards the BCA luncheon.

Destination BOOST

A proposal was received from the Tourism Council of Western Australia, for the City to sponsor the Destination BOOST tourism training program. The program includes destination profiling and metrics, business diagnostics, masterclass group training, business mentoring and trade introductions and exhibitions. The cost to the City is \$30,000, which includes two days training for up to 20 businesses and intensive mentoring for five businesses. The recommendation is that officers investigate this proposal further and provide information back to MERG, for funding consideration as part of the 2020/21 marketing budget.

Spendmapp

The City's Events and Economic Development staff have been investigating a data collection tool, Spendmapp, that analyses electronic bank transaction data to and from the local government area. The tool assists in capturing data in relation to the economic benefit of events, as well as monitoring spend (location, day and time, retail categories including food and beverage) within the local government area which could then be provided to assist business. Heat maps, graphs and other data can be produced to show spend through electronic banking, and also spending leakage from local residents to other regions. Many other local governments are already using this tool and have found it to be extremely useful. The recommendation is that officers investigate this proposal further and provide information back to MERG, for consideration of funding as part of the 2020/21 marketing budget.

Statutory Environment

The officer recommendation supports the general function of a local government under the *Local Government Act 1995* to provide for the good government of persons in its district.

Relevant Plans and Policies

The officer recommendation is in line with the City's Events Policy which provides event organisers with information on the event application and approval process and event sponsorship guidelines.

Financial Implications

At the 31 July 2019 Council meeting, Council resolved (C1907/130) to include an allocation of \$993,270 in the 2019/20 marketing and events budget, with a split of \$693,270 for events and \$300,000 for marketing. Funds committed from the 2019/20 Events Sponsorship Program through multi-year agreements and Rounds 1 and 2 totalled \$682,875. However City officers have been advised of the cancellation of two (2) events (Yalambi Showjumping Classic – International CSIJ-B Teams Event \$2k, Junior Beetles Rugby 10's Competition \$2k), leaving a balance of \$14,395 in the 2019/20 events budget.

Of the \$300,000 allocated to the Marketing Budget, \$180,000 is allocated to the Airport Marketing Reserve leaving a balance of \$120,000 to be applied to marketing initiatives in the 2019/20 financial year. Previous allocations for the CinefestOZ GO! activation of \$11,528 (C1907/124) and Busselton Festival of Triathlon of \$60,000 (C2001/019) totalling \$71,528 have been endorsed, leaving a total of \$48,472 remaining in the 2019/20 marketing budget.

As in previous years, this amount excludes budgetary allocations for 'local' events such as Leavers Week, administration, and events staffing.

Stakeholder Consultation

Consultation has been undertaken with MERG members with representatives comprising the Busselton and Dunsborough Yallingup Chambers of Commerce and Industry, Margaret River Busselton Tourism Association (MRBTA), Busselton Jetty Inc. and the City of Busselton.

Risk Assessment

An assessment of the potential implications of implementing the officer recommendation has been undertaken using the City's risk management framework, with risks assessed taking into account any controls already in place. The officer recommendation does not introduce any risks identified as being of a high or medium level.

Options

Council may choose not to support the recommendations made by MERG and resolve not to endorse part or all of the recommendations.

CONCLUSION

MERG has been assigned by Council to make recommendations on the way in which funds raised through the industrial and commercial differential rate for the purposes of events and marketing are allocated. This report contains the recommendations made at the 12 February 2020 MERG meeting, which if endorsed by Council, will result in the continuation of high quality events being held within the region, supported by successful marketing promotions. All recommendations support Council's vision of being recognised as the 'Events Capital WA.'

TIMELINE FOR IMPLEMENTATION OF OFFICER RECOMMENDATION

Following Council's decision, the outcomes will be communicated to MERG members and relevant event/marketing bodies for their information and implemented where required.
