With a background in small business, aviation, and practical common sense, I've proudly served our community since 2021. I bring a strong understanding of policy and legislation, and a commitment to shaping a vibrant, well-planned future for our region.

Sport and recreation, especially the long awaited 50m pool, remain a top priority. You have been heard; site selection is underway. As Chair of the Waterways Committee, I am also lobbying hard for restoration of the Vasse River.

Small enterprise is the backbone of our economy and to support growth we must cut red tape, simplify approvals, and restore 'Can Do' culture - benefitting all, including business and agribusiness.

Keeping costs down for all ratepayers is essential.

Our seniors, service clubs, sporting groups, volunteers and fires are the heart of our City. You have my full support.

Your calls and emails matter to me and I will always respond.

I respectfully ask for your continued support.
