

ADOPTED BUDGET

2016 - 2017

EXECUTIVE SUMMARY

It is with pleasure that the 2016/17 draft annual budget is presented for formal consideration by the Council.

In its development, valuable guidance and direction has been provided by Elected Members to ensure that the draft budget is achievable and economical, whilst also being considerate of the community's key goals and objectives; as reflected in the Council's overarching strategic planning documents.

The draft budget has also been informed by a number of underpinning strategic documents, including the Long Term Financial Plan, the Workforce Plan and the Asset Management Plan. The decision to fund the associated financial implications associated with these plans affirms the Council's intent that the annual budget should not only consider short term financial obligations, but is developed in a manner that recognises and makes provision for long term financial commitments.

Consequently, it is considered that the draft budget as presented encapsulates the anticipated priorities and desires for the City and its residents over the next twelve months, whilst also continuing to provide a solid platform by which the City's future financial sustainability can be further built upon.

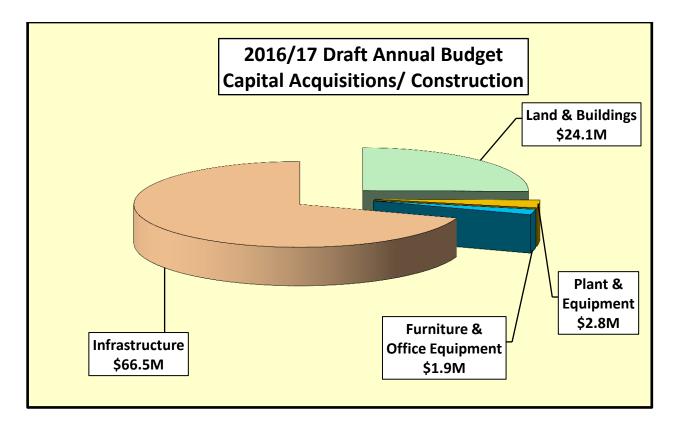

The following provides an overview of several draft budget highlights:

Capital Acquisitions and Construction

In addition to budgeted operating expenditure of \$64.7M, a further \$95.3M has been earmarked for capital activities in 2016/17. This is summarised by asset class as follows:

- TOTAL	\$95.3M
- Furniture and Office Equipment	\$1.9M
- Plant and Equipment	\$2.8M
- Land and Buildings	\$24.1M
- Infrastructure	\$66.5M

The draft capital acquisitions and construction budgets incorporate a number of significant projects, including the following:

□ Infrastructure

Infrastructure spending for the 2016/17 budget year is summarised as follows;

- Airport Development \$39.0M
- Busselton Foreshore \$7.7M
- Roads \$7.5M
- Waste Infrastructure \$3.9M
- Carparks \$1.5M
- Bridges \$2.0M
- Parks, Gardens and Reserves \$1.3M
- Drainage, Townscape and Boat ramps \$1.0M
- Footpaths and Cycle ways \$1.1M
- Beach Restoration \$0.5M
- Other Infrastructure Works \$1.0M

⇒ Land and Buildings

The land and buildings budget is summarised as follows;

Civic and Administration Building \$14.5M

- Busselton Foreshore building construction costs of \$5.5M for;
 - Foreshore East-Youth Precinct Community Youth Building/SLSC
 - o Railway House
 - Milne Street Pavilion
 - Old Busselton Lighthouse
- Airport Development land purchase \$2.4M
- Other Buildings \$1.6M
- Property Services \$0.1M

⇒ Plant and Equipment

This budget is primarily reflective of the scheduled changeover of the City's light and heavy plant fleet as well as purchase of some new items associated with servicing a growing population.

This budget primarily relates to the fit out of the Administration Building \$1.1M, the replacement of IT Equipment, Furniture and Fittings, and includes one off expenditure of \$0.1M for initial fit out of Railway House and a further \$0.1M for continuation of the Settlement Arts Project.

Borrowings

The 2016/17 draft annual budget includes \$3.65M in proposed new borrowings, for the following purposes:

⇒ Busselton Foreshore (\$3M)

\$3.0M in additional loan funding to continue works in relation to the Busselton Foreshore. Borrowings to date for the Busselton Foreshore inclusive of the 2016/17 budgeted amounts are \$10.6M.

⇒ Car Parking (\$500K)

Relating to land purchase for the provision of future town site car parking amounting to \$1.35M, with the remainder being funded from the Car Parking Reserve.

⇒ Community Groups Self Supporting Loan (\$150K)

A provision made for loan funding to community groups, enabling them to borrow funds at lower interest rates through support of the City. Liability for the repayment of the loans remains with the community group.

Notwithstanding the above draft budget allocations, the City's overall debt exposure continues to reflect a favourable position, with the Department of Local Government's recommended debt ratios being exceeded.

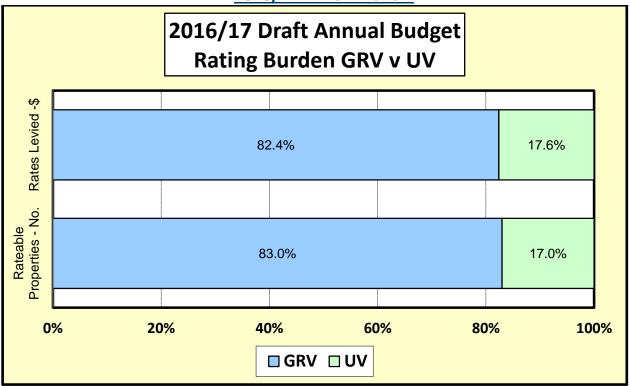

Rating

The Council has recently adopted it Long Term Financial Plan 2016/17 to 2025/26. The Long Term Financial Plan (LTFP) details the City's financial position over the next ten years, and incorporates the financial implications of the City's Asset Management Plans, Corporate Business plan and other plans as they impact the LTFP.

At which time the Council endorsed its Long Term Financial Plan, it was determined that in 2016/17, a general rate increase of 4.95% was to be levied. Subsequent work and a focus on reducing costs via the budget process has enabled the general rate increase to be reduced to 4.45% with no increase to waste charges for 2016/17. In addition to the above, the Council has endorsed a proposal to increase the minimum rate to \$1,160.

The draft budget has also maintained the prevailing methodology in respect of the equity in the rating burden between the gross rental value (GRV) and unimproved valuation (UV) rating categories. The following graphical representation illustrates the comparative between the value of rates levied in each category (excluding specified area rates) and the number of rateable properties in each.

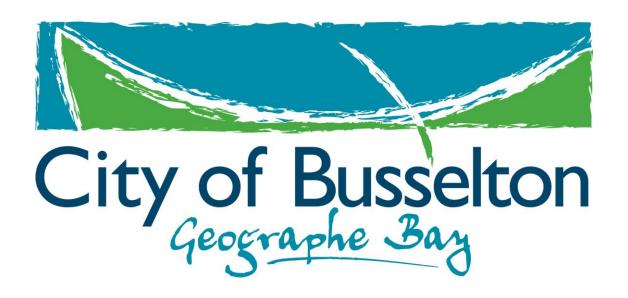

Whilst the above provides only a snapshot of the Council's 2016/17 draft annual budget, it is considered that the budget represents excellent value for the ratepayers of the district, and as such, is recommended for approval.

- 40

Mike Archer Chief Executive Officer

Notes:

All fair value adjustments relating to re-measurement of financial assets at fair value through profit or loss (if any) and changes on revaluation of non-current assets are impacted upon by external forces and not able to be reliably estimated at the time of budget adoption.

Fair value adjustments relating to the re-measurement of financial assets at fair value through profit or loss will be assessed at the time they occur, with compensating budget amendments made as necessary.

It is anticipated, in all instances, any changes in revaluation of non-current assets will relate to non-cash transactions and as such, have no impact on this budget document.

This statement is to be read in conjunction with the accompanying notes.

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), Australian Accounting Interpretations, other authorative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this budget are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the budget has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 16 to this budget document.

(b) 2015/16 Actual Balances

Balances shown in this budget as 2015/16 Actual are as forecast at the time of budget preparation and are subject to final adjustments.

(c) Rounding Off Figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

(d) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

(e) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a Gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

(f) Superannuation

The Council contributes to a number of Superannuation Funds on behalf of employees. All funds to which the Council contributes are defined contribution plans.

(g) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in the statement of financial position.

(h) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Inventories

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land Held for Sale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(j) Fixed Assets

Each class of fixed assets within either, property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Initial Recognition and Measurement between Mandatory Revaluation Dates

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework detailed above.

Revaluation

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Land Under Roads

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16(a) (i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a) (i) prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

- 10 - City of Busselton

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Fixed Assets (Continued)

Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

Major depreciation periods used for each class of depreciable asset are:

Fixed Assets:

Land	0	Years
Buildings - General	40	Years
Buildings – Geographe Leisure Centre	10 - 20	Years
Furniture and Equipment – Basic Items	10	Years
Furniture and Equipment – EDP Network	3	Years
Heavy Plant and Equipment	3 – 10	Years
Light to Medium Vehicles	3 - 5	Years
Light Mobile Plant	2	Years
Tools	10	Years
Infrastructure:		
Roads	15 - 50	Years
Bridges	60 - 90	Years
Car Parks	20 - 40	Years
Footpaths & Cycle ways	20 - 40	Years
Parks, Gardens & Reserves & Community Facilities	5 - 50	Years
Storm water Drainage	25 - 90	Years
Regional Airport & Industrial Park	12 - 40	Years

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained surplus.

Capitalisation Threshold

Expenditure on items of equipment under \$1,000 is not capitalised. Rather, it is recorded on an asset inventory listing.

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Fair Value of Assets and Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a guide:

Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1 - Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 - Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Council selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Council are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

- 12 - City of Busselton

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Fair Value of Assets and Liabilities (Continued)

Valuation techniques (Continued)

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

The mandatory measurement framework imposed by the Local Government (*Financial Management*) Regulations requires, as a minimum, all assets carried at a revalued amount to be revalued at least every 3 years. Relevant disclosures, in accordance with the requirements of Australian Accounting Standards have been made in the budget as necessary.

(I) Financial Instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Council commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and Subsequent Measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is calculated as:

- (a) the amount in which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments and any reduction for impairment; and
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method.

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

(i) Financial assets at fair value through profit and loss

Financial assets are classified at "fair value through profit or loss" when they are held for trading for the purpose of short term profit taking. Assets in this category are classified as current assets. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss. Loans and receivables are included in current assets where they are expected to mature within 12 months after the end of the reporting period.

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(I) Financial Instruments (continued)

Classification and Subsequent Measurement (continued)

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Council's management has the positive intention and ability to hold to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Held-to-maturity investments are included in current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as non-current.

(iv) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for impairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in current assets, where they are expected to be sold within 12 months after the end of the reporting period. All other available for sale financial assets are classified as non-current.

(v) Financial liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in the profit or loss.

Impairment

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

De-recognition

Financial assets are derecognised where the contractual rights for receipt of cash flows expire or the asset is transferred to another party, whereby the Council no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(m) Impairment of Assets

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

· 14 - City of Busselton

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Impairment of Assets (continued)

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other standard.

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting this budget, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2017.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

(n) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

(o) Employee Benefits

Short-Term Employee Benefits

Provision is made for the Council's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Council's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Council's obligations for employees' annual leave, long service leave, and sick leave entitlements are recognised as provisions in the statement of financial position.

Other Long-Term Employee Benefits

Provision is made for employees' long service leave, annual leave and sick leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations or service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Council's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Council does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Sick Leave Scheme

The provision for employee's entitlements under the sick leave scheme represents the estimated cash flows to be made by the employer resulting from the employee's service to balance date in accordance with the relevant clause of the City of Busselton's Enterprise Agreement 2014.

Clause 34 of the City of Busselton's Enterprise Agreement 2014 states that; "Those employees who commenced employment with the City prior to 22 August 2003 will continue to be entitled to 15% of the monetary value of their accrued sick leave on resignation, retirement or redundancy, as negotiated in the City of Busselton Certified Enterprise Bargaining Agreement 1997 (subclause 17.18(2))".

(p) Borrowing Costs

Borrowing costs are recognised as an expense when incurred.

(q) Provisions

Provisions are recognised when the Council has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

- 15 - City of Busselton

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(r) Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not legal ownership, are transferred to the City and classified as finance leases.

Finance leases are capitalised recording an asset and a liability at the lower amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight live basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight line basis over the life of the lease term.

(s) Interests in Joint Arrangements

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint venture entities providing joint venturers with an interest to net assets are classified as a joint venture and accounted for using the equity method.

Joint venture operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The City's interests in the assets, liabilities, revenue and expenses of joint operations are included in the respective line items of the financial statements.

(t) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where the Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for sale where it is held as non-current based on the Council's intentions to release for sale.

(u) Comparative Figures

Where required, comparative figures have been adjusted to conform to changes in presentation for the current budget year.

(v) Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in this budget document relate to the original budget estimate for the relevant item of disclosure.

(w) Bonds and Deposits

Deposits and bonds received by the City of Busselton, and duly refunded where appropriate; are processed via the Municipal fund.

The City's audit committee has considered the requirements of the Accounting Standards and has determined that the concept of control has been met. Council Resolution C1004/115 states that the City continues the accounting treatment for deposits and bonds as part of the Municipal fund. Additionally, the deposits and bonds shall be brought to account as part of the restricted cash in the Municipal fund.

(b) Statement of Objective

In order to discharge its responsibilities to the community, Council has developed a set of operational and financial objectives. These objectives have been established both on an overall basis, reflected by the City's Community Vision, and for each of its broad activities/programs.

Community Vision

The City of Busselton's vision is "A vibrant and cohesive community that protects its natural environment, meets the needs of its population and ensures that future development maintains the City's unique character, lifestyle and community values - The best place to be". In order to support its vision the City is committed to the values of honesty and integrity, a 'can do' attitude, openness, transparency and accountability, mutual respect in everything we do, and striving for excellence.

Council operations as disclosed in this budget encompass the following service orientated activities /programs:

General Purpose Funding

Objective: To collect revenue to allow for the provision of services.

Activities: Rates, interest revenue and other general purpose Government grants together with any expenses incurred in realising these incomes.

Governance

Objective: To provide decision making process for the efficient allocation of scarce resources.

Activities: Administration and operation of facilities and services to members of Council; other costs that relate to strategic planning, policy making and assisting elected members and ratepayers on matters which do not concern other specific services of Council.

Law, Order and Public Safety

Objective: To provide services to help ensure a safer and environmentally conscious community.

Activities: Supervision and enforcement of various by-laws, fire prevention, animal control and emergency services. Council also provides assistance to surf lifesaving efforts.

- 18 - City of Busselton

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

2. Revenue and Expenses (Continued)

(b) Statement of Objective (Continued)

Health

Objective: To provide an operational framework for environmental and community health.

Activities: Inspections of food outlets and their control, noise control, waste disposal compliance, mosquitoes and stingers control.

Education and Welfare

Objective: To provide services for the elderly, children and youth

Activities: Annual donation relative to the operation of a Senior Citizen's Centre.

Housing

Objective: To provide and maintain elderly residents housing. **Activities**: The operation of three sets of aged persons homes.

Community Amenities

Objective: To provide services required by the community

Activities: Includes rubbish collection and disposal services, recycling initiatives, septic tank inspection services, urban stormwater drainage networks, environmental protection initiatives, operation of three cemeteries, town scaping facilities, as well as the administration of Council's Town Planning Scheme and associated policies and obligations.

Recreation and Culture

Objective: To establish and effectively manage infrastructure and resources which will help the social well-being of the community

Activities: Maintenance of halls, swimming areas and beaches, various reserves, recreation programs, the Busselton Jetty, the operation of the two Libraries, the maintenance and operation of the two Leisure Centres, and the employment of a Cultural Development Officer.

Transport

Objective: To provide safe, effective and efficient transport services to the community.

Activities: Construction and maintenance of roads, bridges, drainage, footpaths, cycle ways, parking facilities, traffic signs and depot. Also includes cleaning of streets, maintenance of street trees, street lighting etc. Control and maintenance of a regional airport.

Economic Services

Objective: To help promote the City and its economic wellbeing.

Activities: The regulation and provision of tourism initiatives, the maintenance and operation of a Caravan park and the implementation of building controls. Provision of rural services including weed control, vermin control and standpipes.

Other Property and Services

Objective: To monitor and control Council's overheads operating accounts.

Activities: Private works operation, plant repair and operation costs and engineering operation costs.

All of the cash backed reserve accounts are supported by money held in financial institutions and match the amounts shown as restricted cash in Notes 15 (a) to this budget report (with the exception of an adjustment made for accrued interest).

In accordance with council resolutions in relation to each reserve account, the purpose for which the reserves are set aside are as follows:

Airport Infrastructure Renewal and Replacement Reserve

To provide funding for the renewal, replacement, upgrading and installation of Airport Infrastructure; and to facilitate the implementation of the Noise Management Plan and related activities.

Asset Depreciation Reserve

To assist the City in funding capital expenditure on renewal, replacement and improvements of infrastructure assets as determined by Council, and as specifically identified in relevant Asset Management Plans.

Climate Adaptation Reserve

To cover repairs or preventative measures necessary to protect the beach or land based assets, as well as specific capital projects designed to protect the shoreline, e.g. construction of a sea wall.

Building Asset Renewal Reserve

To provide funding for future building requirements for assets that do not have their own reserve account or loan funding.

Corporate IT Systems Programme Reserve

To assist the City in funding expenditure required in relation to the ongoing development and enhancement of the City's corporate systems.

Jetty Maintenance Reserve

As a contingency fund to rectify damage caused by the demise of the Busselton jetty or part of the jetty or for large unbudgeted extraordinary jetty repairs.

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

6. Reserves – Cash Backed (Continued)

Legal Expenses Reserve

To provide for any legal expenses or contingency involving the City of Busselton.

Long Service Leave Reserve

To provide funding to meet Council's future long service leave obligations.

City Car Parking and Access Reserve

To provide adequate public car parking in the City for the future, and can be used for the purchase of land and/or development of public car parking and access thereto, the development of infrastructure to provide for the management of public car parking and providing improved public transport to and within the City.

Plant Replacement Reserve

For funding and the purchase of new plant and equipment as may be required to mitigate growth needs or improvements to service levels as agreed by the Council; or plant and equipment as identified in the 10 year plant replacement program by using the basis of plant depreciation earnings and subsidisation by annual budgets as required.

Professional Development Reserve

To provide funding to meet the City's ongoing contractual professional development obligations.

Road Asset Renewal Reserve

To meet the needs of the Long Term Financial Plan road asset management plan requirements.

Sick Pay Incentive Reserve

To provide funding to meet Council's obligations under the City of Busselton's Enterprise Bargaining Agreement.

Strategic Projects Reserve

To finance activities which will create a revenue stream for the City and reduce reliance on rate revenue.

Waste Management Facility and Plant Reserve

To fund the acquisition of additional waste plant, waste facility infrastructure, waste related expenditure and post closure management.

Port Geographe Development Reserve

To provide for costs associated with the Port Geographe development.

Port Geographe Waterways Management Reserve

To provide funds for Council to fulfil its obligations under a Waterways Management Deed with Pindan Constructions for the future maintenance of waterways and associated facilities within the Port Geographe subdivision area.

Workers Compensation Contingency Reserve

A contingency fund to assist Council in meeting its Workers Compensation Contribution obligations when claim costs exceed the "Deposit" amount allocated to claims. This is a requirement under Councils current Workers Compensation "performance based contributions policy".

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

6. Reserves – Cash Backed (Continued)

Provence Landscape Maintenance Reserve

For the purpose of holding funds for the maintenance of the approved higher standard of landscaping within the Provence subdivision in accordance with Policy 185/3 including future capital replacement of landscaping structures as may be required.

New Infrastructure Development Reserve

For the purpose of setting aside funds to facilitate the identification, design and development of new infrastructure and other capital projects.

Vasse Newtown Landscape Maintenance Reserve

For the purpose of holding funds for the maintenance of the approved higher standard of landscaping.

Untied Grants Reserve

To hold untied grants monies received in advance.

Locke Estate Reserve

To provide funding for the protection of the Locke Estate (Reserve 22674) coastline.

Busselton Community Resource Centre Reserve

To hold funds for costs associated with asset management (as well as a contingency for annual depreciation) of the building located on Reserve 41445, and known as the Busselton Community Resource Centre.

CBD Enhancement Reserve

Financing works and improvements within the Busselton Central Business District', including both capital and maintenance works which enhance the old fire station and / or the CBD generally.

Election, Valuation and Corporate Expenses Reserve

To provide funding for Council elections, rating valuations, fair value valuations and other legislative and corporate governance requirements.

Civic and Administration Centre Construction Reserve

To provide funding for the construction and fit-out of a Civic and Administration Centre, plus associated costs.

Performing Arts Centre Reserve

To provide for the planning and construction of a future Performing Arts Centre for the District.

Airport Marketing Reserve

The purpose of promoting the Busselton Regional Airport.

Employee Entitlements Reserve

To provide funding to meet Council's future long service leave obligations. To provide funding to meet Council's obligations under the City of Busselton's Enterprise Bargaining Agreement (Sick Pay Incentive). To provide funding to meet the City's ongoing contractual professional development obligations.

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

6. Reserves – Cash Backed (Continued)

Infrastructure Asset Renewal Reserve

To assist the City in funding capital expenditure on renewal, replacement and improvements of infrastructure assets as determined by Council, and as specifically identified in relevant asset management plans.

To meet the need of the Long Term Financial Plan Road Asset Management plan requirements.

Community Development Contribution Reserve

To hold development contributions received by the City for the provision of new or upgraded community infrastructure.

Busselton Area Drainage and Waterways Improvement Reserve

To hold development contributions received by the City for the provision of drainage works and the management and improvement of waterways within the Busselton area including the lower Vasse River.

Joint Venture Aged Housing Reserve

To hold funds to meet future expenses, including capital, maintenance, operational and administrative costs associated with the provision of community aged housing at Winderlup Villas and Harris Road pursuant to the relevant joint venture agreements with the Department of Housing.

Public Art Reserve

To hold restricted development contributions received by the City for the commissioning, purchase and enhancement of public art works.

Specified Area Rate						476,526	449,63
Total Rates						41.899.310	39,160,1

The general rates detailed above for the 2016/17 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extent of any increase in rating over the level adopted in the previous year. The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services / facilities.

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

8. Rating Information – 2016/17 Financial Year (Continued)

Rating Objects and Reasons for Differential Rates:

Objects and Reasons for Differential Rates

The overall object of the City's differential rating is to balance the shortfall of the 2016/17 annual budget in a manner that is simple, efficient and equitable to all ratepayers within the district.

The reasons supporting each differential rate group are provided as follows:

Differential Rates - Gross Rental Valuations (GRV)

Residential (Vacant/Improved)

The rate in the dollar for "Residential" is 8.3838 cents and is the Council's general rate and therefore sets this year's basis for rates raised within the (GRV) area.

Commercial/Industrial (Improved)

The rate in the dollar for "Commercial/Industrial" is 1.7405 cents higher than the Council General rate. This additional amount is to fund Tourism and Marketing and related projects throughout the district.

Commercial/Industrial (Vacant Land)

The rate in the dollar for "Commercial/Industrial - Vacant Land" is 2.7690 cents higher than the Council General Rate and is also higher than the Commercial/Industrial improved rate. The rate reflects the impact of lower growth in the Commercial/Industrial vacant land valuations since the 2012 General Revaluation and maintains the overall financial relativities previously set by Council in 2005/2006.

Differential Rates - Unimproved Valuations (UV)

Primary Production

The rate in the dollar for "Primary Production" is 0.4031 cents in the dollar and is the Council's general rate. This rate sets this year's basis for rates raised with the (UV) area. Typically applied to bona-fide farming pursuits.

UV Rural

The rate in the dollar for "UV Rural" is 0.0362 cents less than the Council's UV general rate and has been set to comply with the Council's determination to increase rates by 4.45%, with the rate in dollar achieving this level of increase (in dollar terms) within this Group. Additionally properties within this group are typically of a lower 'commercially intensive' nature than those included within the following UV Commercial land use group.

UV Commercial

The rate in the dollar for "UV Commercial" is 0.3306 cents higher than the general rate. Properties classified under this group are of a non-agricultural commercial nature within an agricultural setting. These properties are used for commercial activities that are not defined within the Councils Primary Production or UV Rural categories. The setting of this rate is to achieve a fair and equitable level of rating between such "like" properties and/or such activities within both the UV and GRV rate groups.

Budget

For the Year Ended 30th June 2017

Notes to and Forming Part of the Financial Report

In accordance with Local Government (Financial Management) Regulation 23(b), the following table identifies and provides reasons for all instances where differential general rate or minimum payments differs from the proposed rate or payment set forth in the local public notice given under section 6.36 of the Local Government Act.

Differential Rates	Advertised		Adopted

13. Interest Charges and Instalments

An interest rate of 11% will be charged on all rate payments which are late. It is estimated this will generate income of \$105,000

Two separate payment option plans will be made available to all ratepayers for the payment of their rates.

Option 1 (Full Payment)

Full amount of rates and charges including arrears to be paid on or before 2nd September 2016 or 35 days after the date of service appearing on the rate notice whichever is the later.

Option 2 (4 Instalments)

First instalment to be received on or before 2nd September 2016 or 35 days after the date of service appearing on the rate notice whichever is the later and including all arrears and service charges and one quarter of the current rates. The second, third and fourth instalments of the current rates are to be made on or before dates shown below:

1st Instalment
 2nd September 2016
 2nd Instalment
 3rd Instalment
 4th Instalment
 3rd March 2017

The cost of the instalment Plan will comprise of simple interest of 5.5% pa calculated from the date the first instalment is due, together with an administration fee of \$4.50 for each instalment notice issued (i.e. \$13.50 for option 2).

The total revenue from the imposition of the interest and administration charge referred to above is estimated at:-

Administration Fee
Late Payment Interest (note 2(a)(ii))
Instalment Plan Interest (note 2(a)(ii))

RATEABLE PROPERTY AS DESIGNATED AND DESCRIBED IN THE SCHEDULES TO THE CITY OF BUSSELTON (VALUATION AND RATING) ORDER 1985 (AS AMENDED)

Specified Area Rates - Unimproved Valuations

❖ Provence UV
Rate in the Dollar – 0.0132 c

Rateable land within Council's UV assessed area, known as the Provence Subdivision (Busselton Airport North. The purpose of this rate is to hold funds for the maintenance of the approved higher standard of landscaping within the Provence subdivision in accordance with Council Policy 185/3 including future capital replacement of landscaping structures as may be required.

Minimum Payments - Differential & General Rates

General Minimum Payment – Differential & General Rates

\$1,160,00

A minimum payment per annum in respect of every lot, location or other piece of rateable land for all zones and land use groups. This is set as the least amount of rates any ratepayer will be bound to pay, ensuring a fair and equitable commitment towards the overall rate levy.

Rates and Charges - Payment Dates

Payment Option One

By single payment within 35 days from date of issue of the rate notice:-

Payment Date: 2nd September 2016

Payment Option Two

By four equal or near equal instalments:-.

1st Instalment Payment Date: 2nd September 2016 2nd Instalment Payment Date: 2nd November 2016 3rd Instalment Payment Date: 3rd January 2017 4th Instalment Payment Date: 3rd March 2017

SCHEDULE OF RATES CHARGES LEVIED

RATEABLE PROPERTY AS DESIGNATED AND DESCRIBED IN THE SCHEDULES TO THE CITY OF BUSSELTON (VALUATION AND RATING) ORDER 1985 (AS AMENDED)

Waste Collection Charges

Domestic Rubbish Collection Service

Charged per annum for a once weekly collection of one 240 litre mobile bin (or 2 @ 120 litre mobile bin) placed in a position on the road verge, accessible to Council's refuse collection vehicle.

Expected total annual yield: \$2,840,000

Fee: \$159.00

Fee: \$75.00

Fee: \$159.00

Rate: 0.001c

Rate: 0.0005c

Recycling Collection Service

Charged per annum for a fortnightly collection from a Council supplied 240 litre mobile recycling bin, placed in a position on the road verge, accessible to Council's collection contractors.

Expected total annual yield: \$1,374,270

❖ Commercial/Industrial Collection Service

Charged per annum for one standard service collected on a weekly basis.

Expected total annual yield: \$232,030

Waste Infrastructure Rate – Gross Rental Valuations

Charged per annum for all rateable gross rental valuation based properties to fund significant waste infrastructure due to increasing environmental licensing requirements. Will also be used to increase recycling activities to reduce waste to landfill.

Expected total annual yield: Nil

Waste Infrastructure Rate – Unimproved Valuations

Charged per annum for all rateable unimproved valuation based properties to fund significant waste infrastructure due to increasing environmental licensing requirements. Will also be used to increase recycling activities to reduce waste to landfill.

Expected total annual yield: Nil

Minimum Payments - Waste Infrastructure

❖ General Minimum Payment – Waste Infrastructure

\$88.00

A minimum payment of \$88.00 will apply to all rateable properties within the District.

Expected total annual yield: \$2,030,000

SCHEDULE OF RATES CHARGES LEVIED

RATEABLE PROPERTY AS DESIGNATED AND DESCRIBED IN THE SCHEDULES TO THE CITY OF BUSSELTON (VALUATION AND RATING) ORDER 1985 (AS AMENDED)

Rates and Charges - Associated Charges

Payments

Instalment Payment Interest

Charged per annum (calculated for the relative added time allowed to pay) on all instalment payments with the exception of the first instalment and those owed by eligible pensioners/seniors registered with Council.

Expected total annual yield: \$203,000

Administration Costs

Fee: \$4.50

Rate: 5.50%

Charged on all instalment payments with the exception of the first instalment and those owed by eligible pensioners/seniors registered with Council.

Expected total annual yield: \$107,600

Late Payment Penalty Interest

Rate: 11.00%

Charged per annum (calculated daily by reference to a simple interest calculation) to apply to all outstanding rates with the exception of those owed by eligible pensioners/seniors registered with Council.

Expected total annual yield: \$105,000

Rate Concessions

In accordance with Section 6.47 of the Local Government Act 1995, the following concessions are to be provided:

Bio-diversity Incentive

\$11,700

Persons with a least 5 hectares of bushland maybe eligible for a rebate in exchange for protection and management of the bushland

Heritage Conservation Policy

Rate: 50%

Persons who apply and enter into a "heritage agreement" maybe eligible for a rate reduction.

Estimated cost: \$900.00

❖ Local Government Boundary Adjustment

Persons whose properties are divided by local government boundaries will be provided concessional treatment to counteract the effects of any minimum payment being potentially applied twice, or rated on the minimum where the value would raise more than the minimum.

Estimated cost: \$200.00

Total Cost of Concessions

\$12,800

Estimated cost not included in the "Rates Estimated Statistical Information".

Inspection Charge

Swimming Pool Fee

Fee: \$57.45

Charged per annum for properties that have on them a swimming pool, for an approved Council officer to inspect the safety requirements.

Expected total annual yield: \$67,000

SCHEDULE OF RATES CHARGES LEVIED

RATEABLE PROPERTY AS DESIGNATED AND DESCRIBED IN THE SCHEDULES TO THE CITY OF BUSSELTON (VALUATION AND RATING) ORDER 1985 (AS AMENDED)

Objects and Reasons for Differential Rates

The overall object of the City's differential rating is to balance the shortfall of the 2016/17 annual budget in a manner that is simple, efficient and equitable to all ratepayers within the district.

The reasons supporting each differential rate group are provided as follows:

Differential Rates - Gross Rental Valuations (GRV)

Residential (Vacant/Improved)

The rate in the dollar for "Residential" is 8.3838 cents and is the Council's general rate and therefore sets this year's basis for rates raised within the (GRV) area.

Commercial/Industrial (Improved)

The rate in the dollar for "Commercial/Industrial" is 1.7405 cents higher than the Council General rate. This additional amount is to fund Tourism and Marketing and related projects throughout the district.

Commercial/Industrial (Vacant Land)

The rate in the dollar for "Commercial/Industrial - Vacant Land" is 2.7690 cents higher than the Council General Rate and is also higher than the Commercial/Industrial improved rate. The rate reflects the impact of lower growth in the Commercial/Industrial vacant land valuations since the 2012 General Revaluation and maintains the overall financial relativities previously set by Council in 2005/2006.

SCHEDULE OF RATES CHARGES LEVIED

RATEABLE PROPERTY AS DESIGNATED AND DESCRIBED IN THE SCHEDULES TO THE CITY OF BUSSELTON (VALUATION AND RATING) ORDER 1985 (AS AMENDED)

Objects and Reasons for Differential Rates - cont'd

Differential Rates – Unimproved Valuations (UV)

Primary Production

The rate in the dollar for "Primary Production" is 0.4031 cents in the dollar and is the Council's general rate. This rate sets this year's basis for rates raised with the (UV) area. Typically applied to bona-fide farming pursuits.

UV Rural

The rate in the dollar for "UV Rural" is 0.0362 cents less than the Council's UV general rate and has been set to comply with the Council's determination to increase rates by 4.45%, with the rate in dollar achieving this level of increase (in dollar terms) within this Group. Additionally properties within this group are typically of a lower 'commercially intensive' nature than those included within the following UV Commercial land use group.

❖ UV Commercial

The rate in the dollar for "UV Commercial" is 0.3306 cents higher than the general rate. Properties classified under this group are of a non-agricultural commercial nature within an agricultural setting. These properties are used for commercial activities that are not defined within the Councils Primary Production or UV Rural categories. The setting of this rate is to achieve a fair and equitable level of rating between such "like" properties and/or such activities within both the UV and GRV rate groups.

									This project (which was listed previously in the 2015/16 draft budget) has been identified through consultation with Finance & Corporate Services (who manage the Busselton Cemetery) is to return the old cemetery chapel from its previous use as a storage shed to its intended use as a chapel and rain shelter. The works to be undertaken are as follows; Sealing and painting of Internal walls, re-surfacing floor, install appropriate lighting,
B9406 Busselton Cemetery - Chapel	30,000	0	0	0	0	0	0	30,000	new glazed entry & door, lining to ceiling and niches for ashes. Internal Wall painting, water stained and not repainted since
B9531 GLC - Sports Hall	95,000	0	0	0	0	0	0	95,000	initial installation. Sports Hall Floor, Full surface stripping, sealing and markings to required specifications for compliance with sporting codes.
B9539 GLC - Roof Repairs	42,700	0	0	0	0	0	0	42,700	Replacement of box gutters, sumps and downpipes. Sports Floor, full surface stripping, sealing and markings to
B9556 NCC Internal Refurbishment	37,000	0	0	0	0	0	0		Sports Floor, full surface stripping, sealing and markings to required specifications e.g. Basket ball association etc. This is for both floor surfaces found in this venue, noting that the current floors are flagged as non-compliant and non-suitable for the activities performed on them. Minor works to partition doors in multi purpose rooms.
B9566 GLC Pool Hall	39,400	0	0	0	0	0	0		Pool Hall, ceiling works. Low level ceiling, replace and repaint sections of flushed fibre cement ceiling from water damage. Replace sections of acoustic grid which have suffered water damage with moisture resistant panels. Windows: renewal of awning windows and vents to western side, seized mechanisms and decayed material. Pool Hall walls, replace cracked acoustic panels on high level walls under roof.
B9594 Vasse Community Recreation Precinct - Change rooms & Toilet	415.100	0	138.370	276,730	0	0	0		The application from the City of Busselton is for the development of the Vasse Community and Recreation Precinct – change rooms and ablutions, which has a total estimated project cost of \$415,100 (ex GST). Based on this, \$276,731 will need to be provided by the City of Busselton in the 2016/17 financial year. This is based on the State Government contributing up to a maximum of 1/3 (one third) of the total project cost through the CSRFF programme. Programme maybe carried over into 17/18 year depends on CSRFF application for the clubhouse facility component.

Townsone Construction									
Townscape Construction									
									Stage 3 of the Dunsborough Town Centre Works will involve
									Road construction, Footpath Construction, Car park
									construction, Drainage works, Light pole relocation and
									installation, tree removal, and landscaping. These works will
									essentially provide connection from Seymour Blvd To Cheiftain
									Crs, allowing direct access to the new Car Park along Cheiftain
									Crs. Cul-de-sacs will also be constructed to prevent
									thoroughfare to and from Geographe Bay Road and the old
									Seymour Blvd will be an extension of the car parking to the
C1024 Dunsborough Road Access Improvements Stage 1	492,000	0	0	0	0	0	0	492,000	current carparking area adjacent to the commercial properties.
